## DEPOT INN & SUITES TEAMS UP WITH TESLA MOTORS

### Tesla Destination Charging now offered as new amenity

**LA PLATA, MO - MAY 2015** - The Depot Inn & Suites has teamed up with Tesla Motors to provide an increasingly desirable amenity: *Tesla Destination Charging*. Tesla High Power Wall Connectors add 58 miles of range per hour to Model S, charging the vehicle overnight and replicating the convenience Tesla owners are accustomed to at home.

The Depot Inn & Suites joins a rapidly growing network of resorts in Tesla's Destination Charging Program. Tesla partners with hotels, resorts, and restaurants around the world to offer High Power Connectors as an amenity for visitors, allowing them to charge their Tesla Model S at locations where they want to stay for several hours like hotels, ski resorts, and restaurants. Model S offers 265 miles of range on a single charge so the High Power Wall Connector can easily top off the Tesla in just a few hours.

"The Depot Inn & Suites is constantly finding new ways to heighten the guests' experience. By combining leading-edge technology and the forward-thinking of Tesla with our commitment to provide outstanding service and offerings, we now have the ability to offer guests a seamless and convenient charging experience during their stay." Barbara Cepinko of the Depot Inn & Suites.

### About the Depot Inn & Suites

The Depot Inn & Suites built in 2006 features 30 beautifully appointed rooms including 4 luxurious themed suites, a heated indoor pool, and a business center with computers, fax and printer. Every room has free in-room WiFi, a microwave and a refrigerator. Guests enjoy a free continental breakfast and a free 24/7 coffee bar. Free hotel shuttle service is available from the airport and the La Plata Amtrak Train Station. Car rentals are available at the hotel. Two Tesla High Power Connectors and a J1772 Level 2 Charger are available to hotel guests and to the public free of charge. While waiting to charge all are welcome to enjoy free Wifi and free coffee in the large luxurious hotel lobby and may browse the vast array of information at the *Silver Rails Country Tourist Information Center* in the hotel lobby.

### About Tesla

Tesla Motors' (NASDAQ: TSLA) goal is to accelerate the world's transition to sustainable transport with a full range of increasingly affordable electric cars. California-based Tesla designs and manufactures electric vehicles, as well as EV powertrain components. Tesla has delivered more than 55,000 vehicles to customers worldwide.

## **About Model S**

Model S is the world's first premium sedan built from the ground up as an electric vehicle. It has been engineered to deliver unprecedented range and a thrilling drive experience. Model S is the world's fastest-accelerating four-door vehicle ever built.

With a rigid body structure, nearly 50/50 weight distribution and a remarkably low center of gravity. Model S offers the responsiveness and agility expected from the world's best sports cars while providing the ride quality of a luxury performance sedan.

Model S has received many awards and accolades, including ***Motor Trend 2013 Car of the Year***®, ***Car and Driver 10 Best 2015***, ***AUTOMOBILE Magazine 2013 Automobile of the Year***, the ***Yahoo! AUTOS Car of the Year***, ***TIME's Best Invention of the Year 2012***, ***Consumer Reports'*** highest score ever given to a car, and a **NHTSA 5-star safety rating**.
